

# Independent Assurance Report

GRI 2–5

## Independent Limited Assurance Report

To the Board of Directors of JSC "National Atomic Company "Kazatomprom":

---

### Introduction

We have been engaged by the management of JSC "National Atomic Company "Kazatomprom" (hereinafter – the "Company") to provide limited assurance on the selected information described below and included in the Integrated Annual Report of the Company for the year ended 31 December 2023 (hereinafter – the "Annual Report").

---

### Description of the subject matter information and applicable criteria

The selected information for the year ended 31 December 2023 is summarized in the Section "5.8. GRI Index" and Section "5.10. SASB Index" of the Annual Report (hereinafter – the "Selected Information").

The Selected information represents information related to the Company and its selected subsidiaries as indicated in the Annex "5.1. About the Report", "5.1.2. Information perimeter" Section of the Annual Report.

The scope of our assurance procedures was limited to the Selected Information for the year ended 31 December 2023 only. We have not performed any procedures with respect to earlier periods or any other items included in the Annual Report and, therefore, do not express any conclusion thereon.

The criteria used by the Company to prepare the Selected Information are contained in the GRI Sustainability Reporting Standards published by the Global Reporting Initiative (GRI) (hereinafter – "the GRI Standards"), SASB Sustainability Reporting Standards published by the International Sustainability Standards Board (ISSB) (hereinafter – "the SASB Standards") and methodology and guidelines developed by the Company and disclosed in the Annual Report (hereinafter – the "Reporting Criteria").

In our view, the Reporting Criteria constitute appropriate criteria to form the limited assurance conclusion.

---

### Responsibilities of the management of the Company

The management of the Company is responsible for:

- designing, implementing and maintaining internal control relevant to the preparation of the Selected Information that is free from material misstatement, whether due to fraud or error;
- establishing internal methodology and guidelines for preparing and reporting the Selected Information in accordance with the Reporting Criteria;
- preparation, measurement and reporting of the Selected Information in accordance with the Reporting Criteria; and
- the accuracy, completeness and presentation of the Selected Information.

---

### Our responsibilities

Our responsibility is to express a limited assurance conclusion on the Selected Information based on the procedures we have performed and the evidence we have obtained.

We performed the limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements other than Audits or Reviews of Historical Financial Information" issued by the International Auditing and Assurance Standards Board. This standard requires that we comply with ethical requirements, and to plan and perform procedures to obtain limited assurance that the Selected Information for the year ended 31 December 2023 has been prepared, in all material respects, in accordance with the Reporting Criteria.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks. The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

---

### Our independence and quality management

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (the IESBA Code), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

We apply International Standard on Quality Management 1, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

---

### Summary of work performed

Our planned and performed procedures were aimed at obtaining limited assurance that the Selected Information for the year ended 31 December 2023 has been prepared, in all material respects, in accordance with the Reporting Criteria. We have performed the following procedures:

- made enquiries of the management of the Company, including the Strategy and Sustainable Development team and those with responsibility for sustainability reporting management and reporting;
- conducted interviews of personnel responsible for the preparation of the Annual Report and collection of underlying data;
- performed analysis of the relevant internal methodology and guidelines, gaining an understanding of the design of the key structures, systems, processes and controls for managing, recording, preparing and reporting the Selected Information; and
- performed limited substantive testing on a selective basis of the Selected Information to check that data had been appropriately measured, recorded, collated and reported.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our limited assurance conclusion.

---

#### Inherent limitations

Under the GRI Standards and SASB Standards there is a range of different, but acceptable, measurement and reporting techniques. The techniques can result in materially different reporting outcomes that may affect comparability with other organisations. The Selected Information should therefore be read in conjunction with the methodology used by management as described in the Annual Report, and for which the Company is solely responsible.

---

#### Limited assurance conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Selected Information for the year ended 31 December 2023 has not been prepared, in all material respects, in accordance with the Reporting Criteria.

---

#### Restrictions of use and distribution

This report, including our limited assurance conclusion, has been prepared solely for the Board of Directors of the Company in accordance with the agreement between us, to assist the management of the Company in reporting on the Company's and its selected subsidiaries' sustainability performance and activities.

We permit this report to be disclosed in the Annual Report, which will be published on the Company's website, to assist the management of the Company in responding to their governance responsibilities by obtaining an independent limited assurance report in connection with the Selected Information.

The maintenance and integrity of the Company's website is the responsibility of management; the work carried out by us does not involve consideration of these matters and, accordingly, we accept no responsibility for any changes that may have occurred to the reported Selected Information or Reporting Criteria when presented on the Company's website.

To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Board of Directors of the Company and the Company for our work or this report except where the respective terms are expressly agreed in writing and our prior consent in writing is obtained.
